---

Melissa and I talked with them today and they want an ArcGIS 9.3.1 service or WMS service?

We can have the call anytime tomorrow should we set it up or will you?

Who is working with the NM GIS people to make sure Orator can serve out web services to the state. We should probably have a quick call with Qi, Tim, and Scott to make sure we can serve out webservices from orator.  
The scribe service to Orator should still be there. We would just need Qi to deploy on production.

Dominic,

Here is the contact information for Brad and Melissa.

You should have gotten the DED from a different source.

M
